[Click Here Donations & Membership](#)

Dyspraxia USA, NFP is financed entirely through donations and member subscriptions. We are working hard to provide you with information about, and personal stories from, people and families living with dyspraxia. This information gives valuable input to families of those struggling with this condition. Your generous contribution will provide aid by funding Dyspraxia USA. Continued funding is very important because it will enable us to reach out to our friends in the 6% to 10% of the population who have dyspraxia. Dyspraxia USA NFP hopes that, through our ideas, we can change the world for those with dyspraxia and their families. Our goal is to generate awareness about, and to help, those living with dyspraxia. We want to generate enough awareness about dyspraxia in order to ensure the earliest diagnosis possible for children. Social and special education needs should be identified early in order to ensure educators and other professionals are aware of the condition and can provide the proper resources for those with dyspraxia.

We would like to eventually provide people throughout the United States who have dyspraxia with a place where they can receive support and participate in social groups and events. Our vision is a society where developmental dyspraxia is more widely accepted and acknowledged.
